Unit Aims	This unit prepares students for strategic leadership roles in data-driven organisations. It focuses on the intersection of data strategy, innovation, organisational change, and data governance. Students will learn to align data initiatives with business goals and lead cross-functional teams to create value through analytics and innovation.
Differentiation Strategies <i>(e.g. planned activities or support for individual learners according to their needs)</i>	The total number of students to be in the lesson is approximately 20. This is a multicultural group of students predominantly between the ages of 24 – 45, with numerous ethnic, gender, and creed background. These are UK academic level 5 students; hence it is assumed that they have practical, theoretical, or technological knowledge and understanding of a subject or field of work to find ways forward in broadly defined, complex contexts. These students must be able to generate information, evaluate, synthesise the use information from a variety of sources. Various approaches to addressing the various identified students needs will be adopted throughout the lesson. Such will include:- <ol style="list-style-type: none"><li>1. Progressive tasks</li><li>2. Digital resources</li></ol>

	<ol style="list-style-type: none"> <li>3. Verbal support</li> <li>4. Variable outcomes</li> <li>5. Collaborative learning</li> <li>6. Ongoing assessment</li> <li>7. Flexible-pace learning</li> </ol>
<b>Equality &amp; Diversity</b>	Variety of teaching techniques will be employed to ensure that the needs of each individual learner are met.
<b>Safeguarding &amp; Prevent</b>	Safeguarding policies and the Prevent duty are strictly observed to ensure the safety, well-being, and inclusivity of all students and staff.
<b>Health &amp; Safety</b>	SIRM H&S policies will be maintained.
